

**WoW Presentation with Michael Harrison & Jordan Gibson  
River Shoals 2025 Annual Meeting  
Monday, January 13, 2025**

Key points from meeting with WoW Fiber:

- They can NOT use the existing conduits that Frontier put in.
- Nothing will be left sticking out of the ground (like the orange conduits), and even the vault (distribution point for incoming/outgoing fiber cable) will be at the ground level.
- Everything goes through easement; nothing goes through the streets/roads.
- Work, such as digging, is subcontracted out.
- Symmetrical internet: means the internet has equal download and upload speeds.
- Since River Shoals is a private community, there may be a potential profit of \$200 per subscriber within the first 90 days.
- Customer service is in Augusta, GA, and Colorado Springs, CO.

### Fiber 5 Gig + YouTube TV

Do it all, all at once with the fastest, most reliable speed out there.

**Included in this bundle:**

- Fiber 5 Gig \$180\*/mo
- YouTubeTV \$72.99/mo
